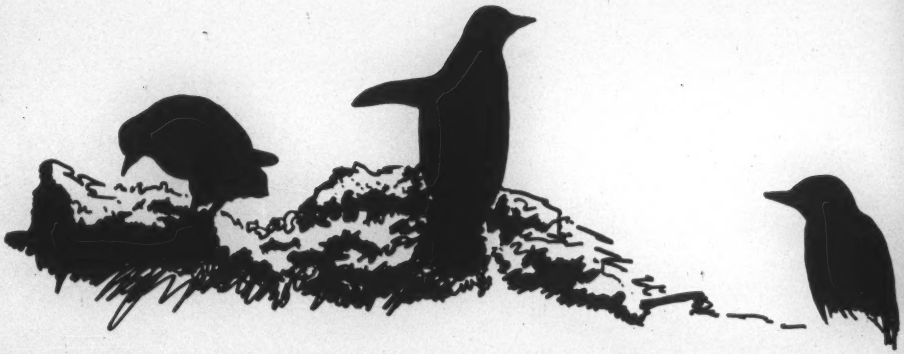
Antarctic Research Series

The Antarctic Research Series provides a publishing medium for the results obtained from the intensive research in all disciplines being performed in Antarctica. Until the establishment of this series, these results had appeared either in shortened form or in scattered publications.

Each volume presents the authoritative work of leading scientists engaged in antarctic research. These original research papers are directed not only to scientists actively engaged in the work, but also to graduate students and to scientists in closely related fields.

Standing orders may be entered for the entire series; holders of standing orders will automatically receive each volume at a special prepublication price.



Volumes in the Series. Biology of the Antarctic Seas I (available only with entire series; $10.00) • Antarctic Snow and Ice Studies ($12.00) • Polychaeta Errantia of Antarctica ($9.00) • Geomagnetism and Aeronomy ($10.00) • Biology of the Antarctic Seas II ($12.00) • Geology and Paleontology of the Antarctic ($14.00) • Polychaeta Myzostomidae and Sedentaria of Antarctica ($10.00) • Antarctic Soils and Soil Forming Processes ($10.00) • Studies in Antarctic Meteorology ($14.00) • Entomology of Antarctica ($17.00) • Biology of the Antarctic Seas III ($13.50) • Antarctic Bird Studies ($16.50) • Antarctic Ascidiacea ($14.00) • Antarctic Cirripedia ($25.00) • Antarctic Oceanology I ($22.00) • Antarctic Snow and Ice Studies II ($24.50) • Biology of the Antarctic Seas IV ($30.00)

New. Antarctic Pinnipedia ($25.00)

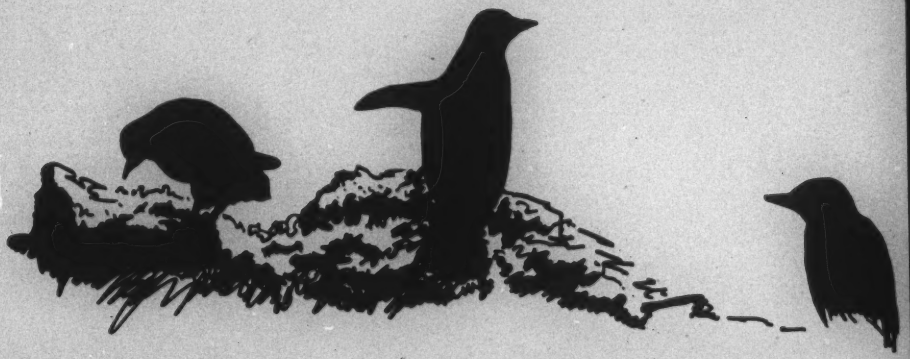
Antarctic Research Series

The Antarctic Research Series provides a publishing medium for the results obtained from the intensive research in all disciplines being performed in Antarctica. Until the establishment of this series, these results had appeared either in shortened form or in scattered publications.

Each volume presents the authoritative work of leading scientists engaged in antarctic research. These original research papers are directed not only to scientists actively engaged in the work but also to graduate students and to scientists in closely related fields.

Standing orders may be entered for the entire series; holders of standing orders will automatically receive each volume at a special prepublication price.



Volumes in the Series. Biology of the Antarctic Seas I (out of print) • Antarctic Snow and Ice Studies ($12.00) • Polychaeta Errantia of Antarctica ($9.00) • Geomagnetism and Aeronomy ($10.00) • Biology of the Antarctic Seas II ($12.00) • Geology and Paleontology of the Antarctic ($14.00, available with series only) • Polychaeta Myzostomidae and Sedentaria of Antarctica ($10.00) • Antarctic Soils and Soil Forming Processes ($10.00) • Studies in Antarctic Meteorology ($14.00) • Entomology of Antarctica ($17.00) • Biology of the Antarctic Seas III ($13.50) • Antarctic Bird Studies ($16.50) • Antarctic Ascidiacea ($14.00) • Antarctic Cirripedia ($25.00) • Antarctic Oceanology I ($22.00) • Antarctic Snow and Ice Studies II ($24.50) • Biology of the Antarctic Seas IV ($30.00) • Antarctic Pinnipedia ($25.00) • Australian-New Zealand Sector ($32.00) • Antarctic Terrestrial Biology ($30.00)
